

Safety pointer for the presentation

Jan26th ,2011

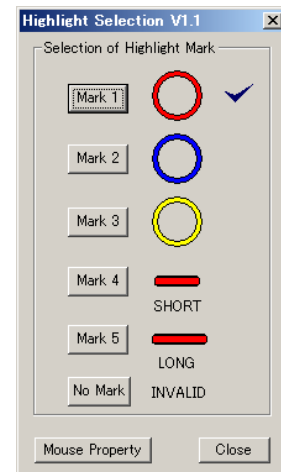

LASER Pointer is no longer necessary if you use a **highlight Mark** together with OZUPAD-AIR.

Download the application software from <http://www.ozupad.com/download.html> .

It is free to download, and can use it when USB receiver of OZUPAD-AIR connected to PC.

You can use the **highlight circle** or **highlight bar** like below.

One example is below

Red circle shape is getting smaller in a second. It targets to the position of mouse Cursor.

Another Mark is the bar, we provide the short-bar and the long-bar.

The center of the red bar shows your target position.

You can get those functions when switch 2 is turned to position 2.(presentation mode)

You can see the highlight circle when Button 1 is pressed.

Turn to 2, it is Presentation mode.

You can see the Circle when Button1 is pressed.

This function can use with focus function simultaneously that windows provided.
